

**0870 351 4922**

**At LETN Solutions we know all about the benefits a small business can receive from a Microsoft Small Business Network.**

**We wanted to produce a document that in two pages answered the two most common questions from our customers....**

**What does it do for my business?  
How much is it going to cost?**

# Small Business Server 2003 Total Network Solution Example

**Including Anti-Virus, Security, data backups & other key products.....**

**SBS2003 What it will do for your business for only £175 per Month!!**

- Shared calendaring, task management, centralized contact information and total management control of company email all provided by the marketing leading Microsoft Exchange 2003 Server. Access your email and calendar securely through your Pocket PC Phone / Smartphone or via Outlook web access from any internet connection in the world.
- Central Data Management & Protection by nightly back-ups to tape.
- Centrally managed security, including Anti-Virus (third party product), Firewall and network use policies for username and passwords, internet access etc...
- Internal company website or "Intranet" allowing files and information to be grouped into projects or filed in a "easy to find" manner.
- Network Faxing solution meaning employees can send and receive faxes from their desk.
- Built in remote access for support meaning IT helpdesks can remotely administer servers and PCs when required.

## Additional Software

Symantec Antivirus software for Client PC's, Server and the email messaging system.

Veritas (now part of Symantec) Backup Exec V.10 for SBS2003. Backup software which copies data to the servers tape drive.

## Ongoing Support

Telephone support and regular maintenance visits to ensure your new network stays running at peak performance.

## LETN Solutions - SBS2003 What will it do for your business?

LETN Solutions uses a blend of products from different vendors to build a solid cohesive solution for our customers.

The various products above fit together to make an entry level network server and associated network infrastructure. We have included some example pricing below for what you see above and the labour required to install and configure it all to up to x5 PCs.

Server, SBS2003 for x10 users, Symantec Antivirus software and Veritas backup software, Netgear firewall and fax modem including all installation and configuration - **£175 per month.**

Ongoing Telephone Support from LETN's professional helpdesk (available 8am to 8pm) and one two hour maintenance visit per month - £200 per month

All pricing is ex VAT and subject to change. This informational document is not a quotation or promotion. Monthly cost of server, software and labour is based on three year lease agreement from Reality Finance limited. Capital cost of server, software and labour is £4581.00 ex VAT
